Team Members

PROBLEM

Digital products fail from fragmentation, not lack of effort.

Five vendors, one project

Design, development, mobile and marketing split across freelancers who don't coordinate.

No visibility until launch

Clients find out something's wrong only when the deadline has already slipped.

Outdated stacks

Sites built on tooling that was already old five years ago, hard to extend or secure.

Support ends at launch

The freelancer disappears, and every bug after go-live becomes the client's problem.

SOLUTION

A transparent, full-stack team built for accountable delivery.

- **One team, start to finish**
Design, build, deploy and grow — no handoffs.
- **Modern, maintainable stack**
WordPress, Shopify, Laravel, React, Node.
- **CI/CD on every project**
Automated deployment pipelines on AWS & DigitalOcean.
- **Support after launch**
Ongoing maintenance, not a one-time handoff.

OUR DIFFERENCE

Why Swastika Soft Logics outperforms

Dimension	Swastika Soft Logics	Conventional Agencies
Delivery Model	✓ One accountable team	✗ Multiple disconnected vendors
Tech Stack	✓ WordPress, Shopify, Laravel, React, Node	✗ Outdated / locked-in platforms
Deployment	✓ Automated CI/CD, AWS & DigitalOcean	✗ Manual, ad-hoc releases
Marketing	✓ SEO, social, paid & AI search in-house	✗ A separate vendor, briefed from scratch
After Launch	✓ Ongoing support & maintenance	✗ One-and-done handoff

✓ One team, full accountability, at every stage.

THE ONE-TEAM ADVANTAGE

Broader coverage × fewer moving parts

1

Team for everything

6+

Services under one roof

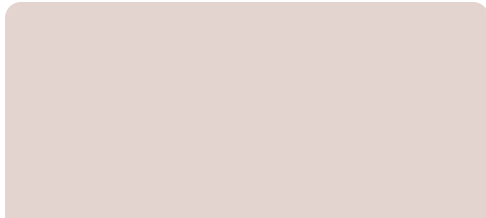

10+

Years combined delivery

Vendors you have to manage

5

Typical Approach

SNAPSHOT

What to expect, stage by stage.

Stage	Typical Timeline	What You Get
Discovery & Planning	~1 week	Scope, stack & project plan
Design & Prototyping	2–3 weeks	Figma wireframes & UI design
Development & Testing	4–8 weeks	Depends on project scope
Launch	1–2 days	CI/CD deployment, zero-downtime
Support	Ongoing	Maintenance & monitoring

Illustrative timelines — actual scope is confirmed during discovery.

DELIVERY DASHBOARD

Clean, real-time visibility into your project.

To Launch

INDUSTRY FIT

Built for your vertical

IT & SaaS / Finance

WHO WE SERVE

Startups, SaaS teams, finance brands

WHAT WE BUILD

Web platforms, dashboards, secure apps

Common need: fast iteration + reliable uptime.

E-commerce & Retail

WHO WE SERVE

D2C brands, retailers, marketplaces

WHAT WE BUILD

Shopify & WordPress storefronts

Common need: conversion-focused design + SEO.

Education & Healthcare

WHO WE SERVE

Schools, clinics, training institutes

WHAT WE BUILD

Informational sites, booking & portals

Common need: clarity, trust and accessibility.

Real Estate & Hospitality

WHO WE SERVE

Agents, developers, hotels & travel

WHAT WE BUILD

Listing sites, booking & mobile apps

Common need: rich media + fast local SEO.

OUR PROMISE

Real delivery, not just promises.

-  **Transparent process**
You see progress as it happens, not just at launch.
-  **Clean code, proper Git & CI/CD**
Built to be maintained long after launch.
-  **Direct access to your team**
No account managers relaying messages.

Built to Last

Every project ships with documentation, clean handoff and a support plan.
