COMPANY DECK · swastikasoftlogics.com

THE PROBLEM

Most businesses juggle five different vendors to build one digital product.

Disconnected teams

Design, development, mobile and marketing handled by separate freelancers who don't talk to each other.

Unpredictable costs

Scope creep and vague estimates turn a simple website into a budget black hole.

Slow, opaque delivery

No visibility into progress until launch day — and launch day keeps slipping.

No one around after launch

The site goes live, the freelancer disappears, and every bug becomes your problem.

THE SOLUTION

One team. Every stage. Design to deployment.

Swastika Soft Logics brings design, development, mobile apps, DevOps and digital marketing together under one roof — so you deal with one partner, not five.

- Full-stack team
- Modern tech stack
- CI/CD delivery
- Post-launch support
